Dear Trushil Patel:

It is my great pleasure to inform you that you were nominated for a 2023-24 Deputy Minister's Award this year.

The Deputy Minister's Awards are an annual opportunity to stop and reflect on the work that is done across the Ministry of Energy and Resources (ER) in support of advancing responsible resource development in Saskatchewan while demonstrating our values. Our employees, located across our beautiful province, are making important contributions that impact the economy, environment and public service every day.

Trushil, you were nominated by Business Solutions Unit in the category of Trailblazer for your work on Systems Integration. This means that the work that you are doing and your commitment to ER's values are being seen and appreciated by others. On behalf of the Executive Management Committee, please know that we are both grateful and proud of you for your contributions.

Once again, congratulations on your deserving nomination this year!

Sincerely,

Blair Wagar  
Deputy Minister
